Iniziative ed Eventi

Innovat&Match: la Ricerca incontra l'Impresa Incontri bilaterali a R2B – Research to Business 2014 Bologna, 4-5 Giugno 2014

Il 4 e 5 giugno si terrà a Bologna la **6° edizione di Innovat&Match 2014**, due giorni di incontri bilaterali tra aziende, centri di ricerca ed università, che avranno luogo nell'ambito di **R2B- Research To Business 2014, 9° Salone Internazionale della Ricerca Industriale** promosso da Regione Emilia-Romagna, Bologna Fiere, Aster e Smau. Con la sua formula collaudata dal 2005, R2B ha l'obiettivo di favorire la collaborazione tra la ricerca avanzata e l'industria a livello nazionale e internazionale; in questo contesto, Innovat&Match offre l'opportunità di organizzare incontri one-to-one al fine di:

- Conoscere nuovi partner tecnologici/produttivi/commerciali internazionali e nazionali;
- Promuovere nuovi prodotti/servizi verso un mercato internazionale;
- Individuare soluzioni a problemi tecnologici specifici.

FOCUS:

- Aerospazio
- ICT
- Agro-food
- Mezzi e sistemi per la mobilità
- Chimica Verde
- Patrimonio culturale
- Costruzioni sicure e sostenibili
- Scienze della vita
- Energia
- Tecnologie per gli ambienti di vita
- Fabbrica intelligente
- Tecnologie per le Smart Communities

Per partecipare è sufficiente registrarsi gratuitamente sul sito ufficiale dell'evento:

<http://www.b2match.eu/r2b2014>

Scadenze:

14 maggio 2014: Registrazione e Pubblicazione dei profili

21 maggio 2014: Selezione degli Incontri bilaterali

Per ulteriori informazioni: simpler2@finlombarda.it

Business Matchmaking Event at REW ISTANBUL 2014 TÜYAP Fair and Congress Center - 13 giugno 2014

In occasione della Fiera **REW Istanbul 2014 – International Recycling, Environmental Technologies and Waste Management Trade Fair** – Enterprise Europe Network organizza un evento di Business Matchmaking allo scopo di facilitare l'individuazione di potenziali partner internazionali per l'avvio di collaborazioni scientifiche, tecnologiche e commerciali

REW Istanbul 2014 è un'occasione per essere aggiornati su tecnologie, macchinari, prodotti e servizi nei seguenti settori:

- **gestione delle acque**
- **gestione dei rifiuti e riciclo**
- **energia rinnovabile**

Le imprese interessate possono registrare un proprio profilo sul sito:

www.een-b2b.org/REWistanbul2014

Gli iscritti avranno la possibilità di richiedere gli incontri di proprio interesse con gli altri partecipanti, selezionati in base al contenuto dei profili presenti nel catalogo dell'evento.

La partecipazione al Business Matchmaking Event a REW è **gratuita**.

Le scadenze previste sono:

06 giugno 2014: termine per la registrazione e la prenotazione degli incontri

13 giugno 2014: Business Matchmaking Event (10.00 – 16.30)

Finlombarda S.p.A., partner di Enterprise Europe Network, è a disposizione delle imprese lombarde per fornire assistenza nelle fasi di preparazione e partecipazione agli incontri.

Per richiedere maggiori informazioni: simpler2@finlombarda.it

**WEST CHINA Business Delegation to Europe
Brokerage Event a
Bruxelles (12-13 Giugno 2014) e Praga (16-17 Giugno)**

EU Project Innovation Centre (Chengdu), Enterprise Europe Network West China, accompagna una delegazione di oltre 60 aziende tecnologiche cinesi in una missione d'affari in Europa.

Nell'ambito di brokerage event organizzati in collaborazione con Enterprise Europe Network a Bruxelles e Praga, la delegazione incontrerà potenziali partner europei per cercare opportunità di cooperazione tecnologica, commerciale e d'investimento.

Focus:

- Information and communications technology (ICT)
- Smart City
- Aeronautica
- Scienze della vita
- Energie rinnovabili, protezione ambientale
- Strumenti di precisione, Ingegneria meccanica
- Agricoltura moderna
- Cluster innovativi, ricerca e innovazione tecnologica

Per partecipare al brokerage event è necessario registrarsi inserendo il proprio profilo sul sito dell'evento:

<https://www.b2match.eu/eu-china-cooperation-fair2014>

La partecipazione è gratuita.

Scadenze:

9 giugno 2014: Registrazione, pubblicazione dei profili e selezione degli incontri

Per ulteriori informazioni: simpler2@finlombarda.it

**HORIZON 2020 Matchmaking ESOF 2014
Copenhagen, 26 giugno 2014**

La rete Enterprise Europe Network organizza un **evento di brokeraggio** in collaborazione con [Vision2020](#) nell'ambito di [ESOF2014 COPENHAGEN](#) (Euroscience Open Forum).

L'evento offre ad aziende, università e centri di ricerca l'opportunità di incontrare potenziali partner per progetti e collaborazioni future. Il focus dell'evento di brokeraggio è dedicato al programma **Horizon2020**, ed in particolare ai bandi inseriti all'interno dei pilastri **Industrial Leadership** e **Societal Challenges**.

L'evento di brokeraggio è parte integrante di ESOF2014, è possibile registrarsi alla conferenza al seguente link:

<https://www.ereq.me/ehome/index.php?eventid=67941&>

dove sono indicati anche i costi di partecipazione.

E' tuttavia possibile partecipare solo al matchmaking con un **ticket d'ingresso valido solo per il giorno dell'evento (50 euro)**. Per partecipare è necessario registrarsi sul sito: <http://www.b2match.eu/esof2014>

Le scadenze previste sono:

24 giugno 2014: termine per la registrazione e la prenotazione degli incontri

26 giugno 2014: Matchmaking Event

L'evento si terrà presso la [sala Pompeii della Carlsberg Academy di Copenhagen](#).

Bandi per la ricerca

Horizon 2020: bandi aperti

Di seguito l'elenco delle call aperte con scadenza nel 2014. È possibile avere il dettaglio degli argomenti di ricerca di ciascuna call scaricando il documento completo al seguente link: <http://www.simplernet.it/ricercaeuropea/orientamento>

Societal Challenge

Europe in a changing world - inclusive, innovative, reflective societies		
Call Title	Budget	Deadline
SC 6: Reflective Societies - Cultural Heritage and European Identities	€ 14 million	30/09/2014
SC 6: Reflective Societies - Cultural Heritage and European	€ 9 million	03/06/2014

Identities 2014		
SC 6: Young Society 2014	€ 19 million	03/06/2014
SC 6: Overcoming the crisis 2014 - new ideas, strategies and governance structures for Europe	€ 35 million	03/06/2014

Food security, sustainable agriculture, marine and maritime research, and the bio-economy

Call Title	Budget	Deadline
FOOD 2014 - Sustainable Food Security	€ 1 million	26/06/2014
FOOD 2014 - Blue Growth: Unlocking the potential of Seas and Oceans	€ 15 million	26/06/2014
FOOD 2014 - Innovative, Sustainable and Inclusive Bioeconomy	€ 24.5 million	26/06/2014

Health, demographic change and wellbeing

Call Title	Budget	Deadline
HEALTH 2015 - Personalising health and Care and Wellbeing (I stage)	€ 330 million	14/10/2014

Secure Societies

Call Title	Budget	Deadline
SECURITY 2014 - Disaster resilience: safeguarding and securing society, including adapting to climate change	€ 65.4 milioni	28/08/2014
SECURITY 2014 - Fighting against crime and terrorism change	EUR 34.81 milioni	28/08/2014
SECURITY 2014 - Border security and external security	€ 40.78 milioni	28/08/2014
SECURITY 2014 - Digital security: cybersecurity, privacy and trust	EUR 47.04 milioni	13/05/2014

Secure, clean and efficient energy

Call Title	Budget	Deadline
Energy 2014 - Energy Efficiency	€ 17 million	05/06/2014
Energy 2015 - Energy Efficiency: PPP EEB and SPIRE Topics	€ 17 million	09/12/2014
Energy 2014 - Competitive Low-Carbon energy (I deadline)	€ 361.80 million	10/09/2014
Energy 2014 - Competitive Low-Carbon energy	€ 361.80 million	10/09/2014
Energy 2014 - Energy Efficiency: Market Uptake	€ 42,5 million	05/06/2014
Energy 2014 - Energy Efficiency: Market Uptake PDA	€ 17 million	05/06/2014

Smart, green and integrated transport

Call Title	Budget	Deadline
Transport 2014 - Mobility for Growth	€ 558.50 million	28/08/2014
Transport 2014 - Green Vehicles	€ 159 million	28/08/2014

Excellent Science

European Research Council

Call Title	Budget	Deadline
ERC - Proof of Concept Grant	€ 15 million	01/10/2014

Future and Emerging Technologies

Call Title	Budget	Deadline
FETs 2014 - Fet Open - novel ideas for radically new technologies	€ 3 million	30/09/2014
FETs 2014 - Flagship	€ 1,6 million	10/06/2014
FET Proactive - towards exascale high performance computing	€ 97.4 million	25/11/2014

Marie Skłodowska Curie Actions

Call Title	Budget	Deadline
MSCA 2014 - Individual Fellowships 2014	€ 240.50 million	11/09/2014
MSCA 2014 - Co-funding of regional, national and international programmes (COFUND)	€ 80 million	02/10/2014

Research Infrastructures (Including e-infrastructures)

Call Title	Budget	Deadline
ERI 2014 - Developing new world-class research infrastructures (different deadlines)	€ 82 million	02/09/2014

ERI 2014 - Integrating and opening research infrastructures of European interest	€ 140 milion	02/09/2014
ERI 2014 - e-Infrastructures (different deadlines)	€ 82 milion	02/09/2014
ERI 2014 - Support to Innovation, Human resources, Policy and International cooperation (different deadlines)	€ 2 milion	14/05/2014
ERI 2014 - Support to Innovation, Human resources, Policy and International cooperation (different deadlines)	€ 20 million	02/09/2014

Industrial Leadership

ICT		
Call Title	Budget	Deadline
ICT 14-2014: Advanced 5G Network Infrastructure for the Future Internet	€ 125 million	25/11/2014
ICT 2014 - ICT 37 Open Disruptive innovation Scheme (SME Instrument) phase 1	€ 25,102 million	17/12/2014

Innovation in SMEs		
Call Title	Budget	Deadline
INNOSUP-2014-5: Peer Learning of Innovation Agencies (Single Stage)	€ 420,00	16/12/2014

Nanotechnologies materials, biotechnologies, manufacturing		
Call Title	Budget	Deadline
NMP+B 2014 - Factories of the Future	€ 145 million	09/12/2014
NMP+B 2014 - Energy-Efficient Buildings	€ 64 million	09/12/2014
NMP+B 2014 - Spire	€ 77 million	09/12/2014

Space		
Call Title	Budget	Deadline
Space 2015: Protection of European Assets in and From Space	€ 6.5 milion	27/11/2014
Space 2015: Earth Observation	€26 million	27/11/2014
Space 2015: Competitiveness of the European Space Sector: Technology and Science	€36.5 million	27/11/2014

Science with and for society

Science with and for society		
Call Title	Budget	Deadline
Science with and for Society - Integrating Society in Science and Innovation	€ 10,3 million	02/10/2014
Science with and for Society - Making Science education and careers attractive for young people	€ 12,2 million	02/10/2014
Science with and for Society - Promoting gender equality in research and innovation	€ 9,5 million	02/10/2014
Science with and for society 2014 - DEVELOPING GOVERNANCE FOR THE ADVANCEMENT OF RESPONSIBLE RESEARCH AND INNOVATION	€8,300,000 million	02/10/2014

Spreading Excellence and Widening Participation

Spreading Excellence and Widening Participation		
Call Title	Budget	Deadline
WIDESPREAD-2014-1 TEAMING	€11,850 million	17/09/2014
WIDESPREAD-2014-2 ERA Chairs	€ 33,600,000	15/10/2014

Euratom

Call Title	Budget	Deadline
EURATOM - Fission	€87.870 million	17/09/2014

Ricerche Partner per Bandi Europei

FONTE: ENTERPRISE EUROPE NETWORK

AUTOMATION, ROBOTICS CONTROL SYSTEMS

1) PS: WIDESPREAD-2014-1 TEAMING - Twinning between a Bulgarian and Western Centres of Excellence in Mechatronics and Machine Building (Ref. RDBG20140228001)

A Bulgarian laboratory on Computer Aided Design and Manufacturing, at a leading Bulgarian university is preparing a proposal for the Horizon 2020 WIDESPREAD-2014-1 TEAMING call. The project aims to develop a long term cooperation between a Centre of Excellence in Mechatronics or Machine Building from a western country and the Bulgarian laboratory in order to establish such a centre in Bulgaria. The Bulgarian partner require a Center of Excellence on Mechatronics to complete the consortium. Deadline for call: 17 Settembre 2014

COMMUNICATION TECHNOLOGIES

2) H2020-DRS- 18-2014 Interoperable next generation of broadband radio communication system for public safety and security - Pre-commercial Procurement (PcP) (Ref. RDES20140408001)

Spanish mobile data related solutions company is setting up a proposal to be presented under the H2020-DRS-2014 Communication technologies and interoperability topic. The main goal is to an EU interoperable broadband radio communication system for public safety and security over the next 15 years. The consortium includes police forces, security forces, telecommunications companies and public bodies. Consortium coordinator is sought in order to submit the proposal. Deadline for call: 28 Agosto 2014

ENERGY

3) H2020 - Researchers and manufacturers sought to co-develop "Post-lithium ion batteries for electric automotive applications"(Call: NMP - GV-2014) (Ref. RDUK20140304002)

A UK research institute with experience in the development of power harvesting is seeking partners to join an H2020 bid to create batteries for electric cars based on flow cell technology. They are seeking researchers with expertise in automotive safety and flow cell technology from across Europe. They are also seeking industrial partners to design and manufacture a novel automotive battery, and a large scale industrial end-user and automotive manufacturer. The consortium is not yet built. Deadline for call: 7 Ottobre 2014

4) PS: H2020 LCE 2 – 2014-Development and optimization of multiple-unit floating offshore platform using bionic approach. (Ref. RDDE20140312001)

A research center based in North Germany is preparing a proposal for the Horizon 2020 LCE 2 – 2014 call. The main aim of the project is to develop a stable multiple turbine floating offshore structure which can be installed in deep sea water. Partner sought are offshore floating turbine manufacturer and wind energy research center. Deadline for call: 10 Settembre 2014

5) Belgian SME seeks partners to submit a H2020 proposal on Energy smart solutions applied to co-working spaces (EE11) (Ref. RDBE20140326001)

Brussels SME is seeking partners in order to submit a H2020 proposal (EE 11 – New ICT based solutions for energy efficiency). The project aims to implement innovative ICT-based solutions for improving energy efficiency in co-working spaces. The company seeks partners in the following areas: university/research institute in the field of social sciences/behavioural change applied to energy consumers; managers of co-working spaces willing to act as exemplary test sites. Deadline for call: 5 Giugno 2014

6) H2020-EE-2014-2-RIA-New ICT- based solutions for energy efficiency-IFORENER (Ref. RDES20140416001)

A Spanish SME is urgently looking for partners in order to submit a proposal to H2020-EE-2014-2-RIA. The aim of the project is to motivate the behaviour change in the energy consumers, in order to reduce the consumption. Different kind of partners such as software developers, building owners and socio-economic impact analysis specialist are sought. Deadline for call: 5 Giugno 2014

ENERGY - BUILDING

7) Partner Search - H2020 - EeB-07-2015: New tools and methodologies to reduce the gap between predicted and actual energy performances at the level of buildings and blocks of buildings (Ref. RDUK20140205003)

The monitoring of real energy use in energy-efficient buildings frequently shows major differences with respect to the predicted performance. This is even worse if a set of interacting buildings is considered. It is therefore important to capture the real complexities of the energy performance of the actual buildings and districts. In addition, effective methodologies for the correct understanding of user behaviour need to be addressed. The UK based University now seeks research cooperation. Deadline for call: 9 Dicembre 2014

8) H2020 EeB-05-2015: Innovative design tools for refurbishing of buildings at district level - Partner Search (Ref. RDUK20140205001)

A UK based University is leading a project to develop an Indicator System that will inform the choice of Intelligent Building Technologies used especially for building refurbishments based on their corresponding sustainability value in terms of energy efficiency, cost reduction and user comfort. The indicator system should evaluate both Building Intelligence and Sustainability in existing buildings. They now seek technical and research cooperation with clients experienced in this field. Deadline for call: 9 Dicembre 2014

HEALTH

9) PS H2020 NMP-11-2015: Cancer therapy using bacterial nanoparticles (magnetosomes) exposed to magnetic field (Ref. RDFR20140402001)

A consortium led by French SME is preparing a project for H2020 NMP-11-2015 on nanomedicine. The proposal is based on an innovative cancer treatment using biological nanoparticles, extracted from magnetotactic bacteria. A preclinical proof-of-concept has been successfully carried out on breast cancer. The SME is willing to submit a project to go from pre-clinical lab stage to Phase 1 clinical testing within the next three years. The coordinator is looking for partners to complete the consortium. Deadline for call: 15 Marzo 2015

ICT - SECURITY

10) H2020: Notification of citizens and authorities about local incidents through social media (Ref. RDGR20140204003)

A Greek SME active in ICT sector is interested in submitting a project under the call FCT-10-2014. The project aims to implement an urban security platform through which authorities will post customized alerts to social media whereas citizens will report significant incidents that they witness. Partners involved in urban security are sought (i.e. police) and experts in software for extracting patterns from images/videos. Deadline for call: 28 Agosto 2014

MATERIAL

11) H2020-FETOPEN-2014-2015-1 Novel ideas for radically new technologies – Natural rubber based films with antimicrobial and antifouling properties (RDFR20140228001)

A French Institute, acting in the synthesis of natural rubber based films, searches partners for FETOPEN-2014-2015-1 project. The project deals with new films, based on a natural resource, which have shown both antimicrobial than marine antifouling properties. Industrial partners are sought for applications of these surfaces both in the medical field (objects used in the hospital in contact with patients and nurses) or devices used in underwater conditions, such as biosensors or tubing. Deadline for call: 30 Settembre 2014

MATERIAL - WASTE

12) PS-H2020-WASTE-6-2015: BIOWASTE2PRODUCT – Searching biowaste products and by-products (Ref. RDES20140214001)

A Spanish Research Centre is preparing a project proposal for the call H2020-WASTE-6-2015 with the aim of finding alternative environmentally friendly uses of a large amount of materials that today are being obtained from biowaste that cannot be used in agriculture, as they come from non-selected organic wastes. End users companies to test and implement new materials, as well as SMEs to characterize and valorize the waste are sought to complete the consortium. Deadline for call: 16 Ottobre 2014

MOBILITY, TRANSPORT

13) Electric Mobility in Norway is looking for partners to "Green vehicle 2014" call. H2020-GV-2014 (Ref.RDNO20131128001)

The Client is a Norwegian industry cluster that cooperates and explores business opportunities within the electric vehicle market. The cluster are looking for international cooperation and are seeking partners for common projects. One actual arena is Horizon 2020 and "Green Vehicle 2014". The Cluster is currently establishing a test site to acquire knowledge and develop solutions to support electric mobility and where solutions can be tested in real-life settings. Deadline for call: 28 Agosto 2014

14) H2020 – GV-3-2014 - A new approach of Hydro mechanical CVT (continuously variable transmission) (Ref. RDIL20140323001)

An Israeli SME is interested to submit a project for topic GV-3-2014 in H2020. The company has developed a Hydro Mechanical Semi Continuously Variable Transmission (HK-CVT) based on a new concept of manipulating hydraulic elements to control the flow capacity of pump and motor, the invention increases the total engine efficacy (mechanical and volumetric). The Company is looking for research partners to build a consortium. Deadline for call: 28 Agosto 2014

WATER TREATMENT

15) PS: H2020 WATER-2015-DRYWATER – Dry anaerobic digestion of Waste Water Treatment Plants sludge. (Ref. RDES20140218001)

A Spanish company is looking for partners in order to submit a proposal for H2020-WATER-1-2015-two-stage call. The main goal of this project is to develop a dry anaerobic digestion of sludge from waste water treatment plants to achieve a "pathogen free" sludge that might be a high quality fertilizer, while increasing the biogas production. Partners with experience in autotrophic nitrogen removal, biogas and processes control are sought. A coordinator is also needed. Deadline for call: 16 Ottobre 2014

Ricerche di Partner Tecnologici e Commerciali

Profili di ricerca/offerta di nuove tecnologie

Presentiamo di seguito alcuni profili di ricerca/offerta di nuove tecnologie di recente inserimento nella banca dati della rete **Enterprise Europe Network**:

Richieste di tecnologia

1) Identification of suitable materials for use in manufacture of innovative scallop dredging equipment. (Ref. TRUK20131209001)

A UK manufacturer of scallop fishing gear has developed an environmentally friendly alternative to the chain bag used for scallop dredging. They have tested the design using polypropylene and while this has been successful in terms of fishing and environmental impact, it is more expensive than the chain bag and has a significantly shorter life span. The company is seeking academic or industry partners to help them identify alternative materials which would improve durability and price point.

2) Methods and adhesions for improved stickability of cheese-flavoured crackers and snacks (Ref. 12 MT 59AE 3RAM)

A Maltese enterprise that manufactures biscuits, crackers and snacks, is facing problems of poor flavour consistency and adhesion and seeks expertise in:

- Characterisation of adhesion of flavours;
- Optimizing parameters and properties of bonding surfaces for flavourings; and/or
- Know-how on product and process design in relation to making the product surface more attractive for increasing the stickability of the flavouring to it.

3) Request for innovative and niche analytical / scientific instruments and lab equipment: materials testing, electro-mechanical, thermal management, gases / particulates (licensing) (Ref. TRUK20140326001)

A South East UK instrumentation manufacturer wants to develop its portfolio by identifying novel and niche instruments for materials testing and gas / particulate analysis. The company is primarily interested in licensing opportunities from manufacturers and research institutes with a view to developing technologies and adding them to their portfolio. Technical cooperation with the company to test use of proposed solutions in different applications is important.

4) Technology for video analysis in media asset management tools (Ref. TRSE20140325002)

A Swedish university spin-off company active in agile software development to a global market, specializing in media asset management (MAM), open source solutions, and interaction design is now looking for video analysis technologies that can be included in their MAM-tools with existing metadata extraction battery. Technical and commercial cooperation with academia and/or companies in the ICT (Information and Communication Technology) industry is sought.

5) Looking for a strategic partner to manufacture an innovative slider packaging for medicines with child resistant system (Ref. 11 FR 33j6 3NL9)

A French SME specialised in medical packaging has developed and patented a child-resistant and senior friendly packaging for medicine blisters. The packaging received the highest child protection level from a famous US laboratory. The SME is looking for a partner operating in the production of customized packaging for the pharmaceutical industry. This partner must be interested in the design and development of a packaging line dedicated to the production and blister filling of this packaging.

6) Review of design of cattle race electronic ID (EID) reading system and the materials used in its construction to achieve a lighter weight product. (Ref. 13 GB 46P5 3RNN)

A Scottish Company which specialises in Livestock Electronic Identification (EID) systems has developed a multi cattle race reader which reads the electronic ID of cattle in high throughput areas such as auction marts, abattoirs and farms. They wish to make the structure of the product lighter and therefore more viable to transport and export and are seeking collaborative partners, either academic or industrial, to help them to assess and develop the components, materials and design.

7) Seeking for a new composite pipe that can bear the inner pressure larger than 50 MP (Ref. TRCN20140107001)

A medium-sized Chinese pipe manufacturer is looking for a type of composite pipe that can bear the internal pressure larger than 5MP used in water, gas and oil transportation. The corporation can be realized by introduction of team with technology or license or product.

8) Partner for development of technology to join aluminium and plastics sought (Ref. TRDE20140409001)

A German company active in extruded aluminium sheath processing, bonding and milling for various industries is looking for a technical co-operation partner with expertise in plastics, hybrid materials or material joining to develop a technology to

join aluminium and plastics for new innovative energy-efficient products, e.g. for light construction, rail engineering, medical technology or other markets.

Offerte di tecnologia

9) Centrifugal extractor (decanter) and vertical centrifuge (separators) for industrial and waste water applications (Ref. TONL20140326004)

Dutch technology centre for sales and service of centrifuges related to industrial and waste water applications is looking for agents/distributors with technical assistance in various European countries. The company's delivery programme consists of equipment applied for dewatering of waste water sludge and Chemical Oxygen Demand (COD) reduction in waste water flows. The company obtained a major market share in the environmental sector with its decanter centrifuges in the various industries.

10) Medical rehabilitation equipment for people with motor impairments (Ref. TOCY20140319001)

A Cypriot SME has developed a new approach to rehabilitation for movement therapy based on an innovative medical equipment. The equipment has successfully been used for rehabilitation in patients with stroke, cerebral palsy and brain/spine injuries, it helps with improvement in neurological deficit, reducing movement disorders and overall improvement in quality of life for disabled patients.

Partners sought for distribution, franchise, license or acquisition agreements.

11) Recycled Polyethylene terephthalate (PET) / glass fibers composites (Ref. TOGR20140422001)

A Greek technological and development center has developed composite materials based on recycled Polyethylene terephthalate (PET) and glass fibers, both obtained from aircrafts insulation material. The company is looking for partners for technical cooperation and/or manufacturing agreement.

12) Engineering and manufacturing of radomes and radar-transparent structural parts for maritime, security and communication markets (Ref. TONL20140307001)

A Dutch SME has specialized knowhow in design, manufacturing and repair of radomes, composite antenna covers and reflectors. The company is originating from aircraft industry and is fully certified. Looking for partners in the maritime, off-shore, security and communication sector. Especially manufacturers of radar, antenna, parabolic dish antenna and/or sensor equipment, for joint development and/or cooperation of specialized high-end products with a high added value and low production volumes.

13) Plasma treatment of textiles (Ref. TODE20140326001)

A German SME, active in the sector of material processing, has developed a plasma treatment method for textiles. The technology improves quality and properties of textiles. Especially the characteristics of the surface can be altered to a different state, for example hydrophil or hydrophob. Textile fibres can be cleaned or prepared to absorb different chemical substances in a better way. The company is looking for partners interested in a technical cooperation and/or commercial agreement.

14) A French SME specialized in fast metallization is looking for partners to develop new processes (Ref. TOFR20140319003)

A French SME, based in the Greater Paris Region, has developed a new process of metallization of ceramic parts with complex shapes and hard to reach areas.

It is looking for partners interested in conceiving other new process of metallisation and brazing of specific parts of electronic components.

15) Multipurpose bio-organic natural fertilizer (Ref. 10 RB 1B1M 3HP8)

Serbian small company is producing natural bio-organic fertilizer under its own brand name with bacteria, natural vitamins and growth stimulator. Advantages are: advance germination, growth and development of plants, increase root system activity and increase leaf mass and photosynthesis activity. Increase yield from 10-25%. Applicable in agriculture, vegetables, flowers, fruits, seeding materials, fodder plants. The company seeks partners for license and technical cooperation in agro business.
